PROFESSIONAL SUMMARY

Front-end developer with 5+ years of experience specializing in Angular and React, along with TypeScript and JavaScript. Skilled in building responsive, user-friendly web and desktop applications, integrating REST APIs, and developing complex features like AI-driven tools and dynamic forms. Experienced in working in Agile teams and collaborating closely with designers, product managers, and backend developers. Committed to writing clean, maintainable code and ensuring cross-browser and device compatibility.

EXPERIENCE

- Infosys** Hyderabad, Telangana
Senior Associate Consultant Oct 2025 – Present
Delivered frontend features within the client design ecosystem while supporting sprint planning and code quality.
 - Developed frontend features using Angular, TypeScript, and the Client UI Framework, ensuring strict alignment with custom component guidelines and enterprise coding standards.
 - Served as an internal PR reviewer to validate code quality before client submissions, prevent review escalations, and help team members unblock tasks.
 - Supported sprint planning with the Scrum Master by analyzing technical scope and providing realistic story point estimations for upcoming features and bug fixes.
 - Authored and maintained product and configuration documentation, collaborating with the QA team to validate builds across test environments.
- Next Education** Hyderabad, Telangana
Engineer Aug 2022 - Jul 2025
Developed features and products from scratch as part of the JS Team in the Research and Development Department. Responsible for troubleshooting issues, extending libraries, and delivering efficient solutions in a fast-paced environment
 - Developed UI for AI-powered tools and interactive applications using WebRTC and REST APIs.
 - Experienced in handling migration projects, including AngularJS to Angular and Flash to Angular.
 - Built canvas-based solutions, including whiteboards, annotations, simulations, and interactive eBooks.
 - Primarily developed in Angular and legacy AngularJS, while also contributing to projects built with React, Next.js, jQuery, and vanilla JavaScript.
- Tata Consultancy Services** Remote
Assistant System Engineer Feb 2021 - Jul 2022
Provided support and enhancements for .NET-based applications with an Angular front-end.
 - Provided support for multiple .NET maintenance projects, wrote SQL queries for generating reports, and resolved faulty data based on client requirements.
 - Resolved bugs in an Angular-based dynamic form builder, enabling admins to create customizable forms.
 - Implemented a page with cascading dropdowns and displayed reports based on user selection.

TECHNICAL SKILLS

Frontend: Angular, React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3

Backend: Node.js, .NET

Databases: SQL, MongoDB

Desktop & UI Libraries: Electron.js, Fabric.js, Highcharts, D3.js

EDUCATION

- Aditya Engineering College** Kakinada, Andhra Pradesh
B.Tech in Computer Science, CGPA: 8.01 Jun 2016 - Sept 2020
